

Priscilla Carlsson

UX/UI-designer | Frontend developer

I am the UX designer with a frontend toolbox who moves through life with salsa steps. Above all, I am driven by my naturally empathetic side to understand people, their background and circumstances. That is one of my best qualities in my role as a UX designer. It is also what makes me especially interested in UX-research.

EDUCATION

UX/UI-designer with frontend competence

Chas Academy, Stockholm

Sep 2024-

The training provides skills in everything from UX/UI and interaction design to HTML, CSS, JavaScript, and React.
